Celva's Graphics Appointment Causes International Flareup

Celva was named manager in charge of PCC Graphics, according to sources close to the Update.

Shortly after her appointment, unnamed New Zealand government officials hand delivered a letter to the Honolulu Immigration Office stating that Celva's nationality is of questionable origin, and that the New Zealand Government and people refuse to take responsibility for any printed materials springing forth from PCC Graphics.

"Kiwis who are now upover, and not downunder, tend to over react to people on the rise," stated Celva in response to the letter.

When asked for their reaction to Celva's appointment, the 6-member graphics crew said, "No problem. We are used to being turned upside down."

Welcome to Graphics Celva!

International Sales Information

To all the P.C.C. Employees:

The number of Japanese vacationers coming to Hawaii is increasing each year and therefore we will continue to see an increase of Japanese at the Center. We ask that you make an effort to help them feel welcome by being friendly and greeting them with a warm Aloha! For those of you who may want to practice Japanese, "konichiwa". This means "Good Afternoon". Please be careful not to offend them with greetings such as Toyota and Yamaha, as some find this offensive and we don't want to discourage our guests. By being warm and friendly, the Japanese tourists will enjoy our Polynesian Hospitality.

Moreover, because the majority of Japanese arrive after 4:00 p.m., they are pressed for time to see all the villages. For this reason our Japanese guides have been asked to hurry their groups through each village. Please do not be offended if these groups leave during the village activities and don't stay for the whole show. We want the Japanese to continue to come see us at the Center and ask for your cooperation and support in making them feel welcome.

Thank you and we appreciate the fine job each of you is doing.
