EMPLOYEE NEWS SHEET OF THE POLYNESIAN CULTURAL CENTER

23 May 1975

P.C.C. Maintenance

CHIT CHAT *with* ELEPA'IO

When going to and from the new Administration building, please use the roadway. For safety reasons, do not cut across the Construction area or along the dirt area mauka of the Terminal building. Please cooperate.

Our special guest on Tuesday, May 20, was Elder Marvin J. Ashton. A VIP canoe tour took him through our villages, where he was presented with tokens from the various islands. The Samoan village held a special welcome ceremony for him and Pres. Mailo. Elder Ashton was presented with a cooked pig, tapa cloth, fine mats, and other food items. At 4:00 p.m. he attended the canoe pageant and then took a cart tour around the villages and the new construction area. He was served dinner at the Hibiscus Buffet and watched our "Invitation to Paradise" in the evening.

Perhaps any of us could get along with perfect people. But our task is to get along with imperfect people.

Richard L. Evans

MAINTENANCE

An unheralded department receiving much criticism yet consistently carrying out responsibilities, is finally coming into its own.

Tony Haiku, Maintenance Manager since 1968 has shouldered the task of maintaining the Center while lacking equipment, skilled manpower, and even adequate manpower. Despite these setbacks, he has persisted in giving service in every area. He has slowly acquired personnel who are committed to their job and the Center. Personnel turnover is less frequent; work performance has increased in quality.

In March, the Maintenance Department took on a physical change. It began with reorganization at the top helm. Two additional assistant manager positions were created giving the department one manager and three assistants. Each assistant has been given definite area assignments, allowing the Manager more freedom to oversee the entire maintenance operation rather than be involved with intricate details better left to supervisors.

Les Forester, Assistant for Structural Repair and Improvements, was featured in the "VILLAGER" on April 18, 1975.

Jimmy Kaanaana, Assistant for Mechanical and Utility Maintenance, was promoted from the position of Auto Shop Supervisor. Jimmy has been with the department since May 1972 and is a man of many talents. He is adept at varied types of maintenance work in many areas and displays administration skills gained from experience during military service.

For relaxation, he has become involved with youth bowling, presently spearheading the Bantam and Junior Bowling leagues at the BY UH Bowling Lanes.

Henry Nawahine, Assistant for Custodial and Landscape, has been in the department since 1971, moving up from grounds super-

visor. Henry merits this promotion since showing a diligence and dedication to his responsibilities in "getting the job done".

A longtime musician, Henry is the head of a musician-filled household. In the Laie area everybody is familiar with the popular "Smiling Souls" band whose membership include his son and daughter.

The Maintenance Department can look forward to better things in the future. Renovation of the office itself has given greater impetus to the entire maintenance personnel. Tentative plans are being considered to include a rest and recreation area for the department.

Here are some of our hard working Maintenance men from various crews in action:

"I painted it pure white."

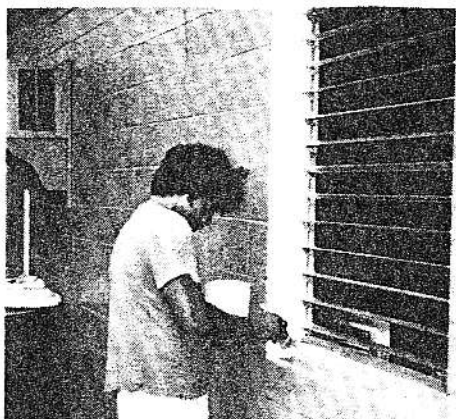

Cut it straight!

Fighting rust on the trams.

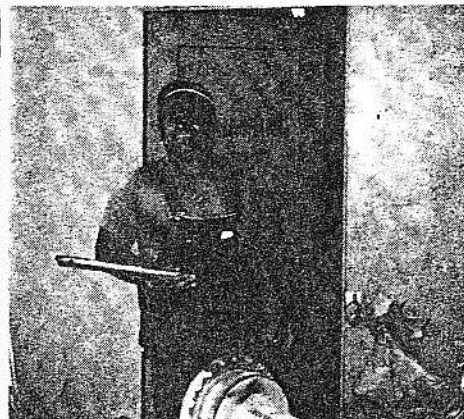

This should hold it together.

Make it look nice.

Electricians in their shop.

Got plumbing problems?
